J. MIKIELEWICZ: Role of thermodynamics in science and engineering	3
T. BOHDAL: Wave character of boiling process in coil tube of air cooler	21
J. TERPIŁOWSKI: A modified flash method for determination of thermal diffusivity in semitransparent solids exposed to laser radiation	39
S. SIENIUTYCZ: Limiting power in imperfect systems with fluid flow	69
P. KONIORCZYK, J. ZMYWACZYK: Approximate analysis of combined heat radi- ation and conduction in aspect of the flat sample thickness effect on heat conduction of semitransparent media	81
S. POSTRZEDNIK: Influence of the heat transfer on the specific thermal capacity of the flowing compressible fluid	95
