

## Contents

A. STACHEL: Analytical modelling of temperature fields in decompression and therapeutic chambers of a two-compartment complex for deep-water diving .....	3
A. NAWRAT AND J. SKOREK: A novel front tracking algorithm in FEM modelling of continuous casting of pure metals .....	21
F.MD. CHOWDHURY AND F. KAMINAGA: Heat transfer characteristics of water in a vertical small diameter tube at sub-atmospheric pressure .....	43
J.T. CIEŚLIŃSKI, J. POLEWSKI AND J.A. SZYMCHYK: Formation of bubbles from a single nucleation site .....	59
S. SIENIUTYCZ: Steady interphase heat transfer in nonlinear media – a variational principle .....	79
<span style="border: 1px solid black; padding: 0 2px;">Z. BILICKI,</span> T. BOHDAL: Wave character of onset of boiling in an annular clearance .....	91
T.H.J.J. VAN DER HAGEN, A. MANERA AND W.J.M. DE KRUIJF: Experimental study on flashing and flashing induced instabilities during the start-up of natural-circulation-cooled boiling water reactors .....	105
