

Contents

T. A. KOWALEWSKI, J. PAKLEZA, R. TRZCIŃSKI AND A. ZACHARA: Experimental analysis of vapour bubble growing on a heated surface	3
H. BIELIŃSKI AND J. MIKIELEWICZ: Natural circulation in two-phase thermosyphon loop heated from below	15
R. KWIDZIŃSKI AND M. TRELA: Investigation of dispersive shock wave in two-phase injector	27
L. VASILIEV, A. ZHURAVLYOV, A. SHAPOVALOV AND V. LITVINENKO: Vaporization heat transfer in porous wicks of evaporators	47
R. HUHN: Effects of design and flow conditions on the losses of hot water storage tanks	61
A. BŁASZCZUK AND P. MIREK: Experimental investigation of the convective heat transfer around a perpendicular plate by means of flow visualization techniques	73
