

Contents

P. KONIORCZYK and J. ZMYWACZYK: Approximate analysis of influence of surface emissivity on combined heat radiation and conduction in aspect of the flat sample thickness effect on heat conduction of semitransparent media .	3
V. TEREKHOV and M. PAKHOMOV: Heat and mass transfer in the near-wall gas-droplets jet along the non-adiabatic pipe wall.....	17
M. KOVAČEVIĆ and CEES W. M. VAN DER GELD: 3-D measurements of vapour bubble detachment with uniform approaching flow	37
D. LUCAS and H.-M. PRASSER: Simulation of condensation in a sub-cooled bubbly steam-water flow along a large vertical pipe	49
J. KERN and P. STEPHAN: A numerical model for vapour bubble nucleation ...	61
S. GUMKOWSKI and J. GOŚCIK: Distribution of heat generated by a local heat source	69
