

Contents

A. WRÓBLEWSKA, A. FRĄCKOWIAK and M. CIAŁKOWSKI: Numerical solution of a direct and inverse stationary problem of heat transfer with a modified method of elementary balances	3
P. FURMAŃSKI, T. WIŚNIEWSKI and E. WYSZYŃSKA: Detection of moisture in porous materials through infrared methods	19
M. TRELA and R. KWIDZIŃSKI: Exergy analysis of steam-water injector performance	41
H. BIELIŃSKI and J. MIKIELEWICZ: The effect of geometrical parameters on the mass flux in a two phase thermosyphon loop heated from one side	59
H. MZAD: Prediction of thermal performance of double-glazed solar collector ...	69
