T. BOHDAL, H. CHARUN AND M. SIKORA: Heat transfer during condensation of refrigerants in tubular minichannels	3
T. BURY, J. SKŁADZIEŃ AND A. FIC: Validation of the heat and mass transfer models within a pressurized water reactor containment using the International Standard Problem No. 47 data	23
A.M. ELAZHARY AND H.M. SOLIMAN: Experimental investigation of the two-phase flow regimes and pressure drop in horizontal mini-size rectangular test section	47
D. MIKIELEWICZ AND R. ANDRZEJCZYK: Comparative study of flow condensation in conventional and small diameter tubes	67
N. RATKOVICH, T.R. BENTZEN AND M. R. RASMUSSEN: Energy consumption in terms of shear stress for two types of membrane bioreactors used for municipal wastewater treatment processes	85
Z. ZAPALOWICZ: Evaluation of dynamic microscopic advanced angle for droplet on flat surface	107
