D. TALER: Experimental determination of correlations for mean heat transfer coefficients in plate fin and tube heat exchangers	3
J. MIKIELEWICZ AND D. MIKIELEWICZ: Optimal boiling temperature for ORC installation	27
K. JESIONEK, A. CHRZCZONOWSKI, P. ZIÓŁKOWSKI AND J. BADUR: Power enhancement of the Brayton cycle by steam utilization	39
A. BORSUKIEWICZ-GOZDUR: Exergy analysis of internal regeneration in supercritical cycles of ORC power plant	51
S. BERDOWSKA AND A. SKOREK-OSIKOWSKA: Technology of oxygen production in the membrane-cryogenic air separation system for a 600 MW oxy-type pulverized bed boiler	65
W. NOWAK, A. BORSUKIEWICZ-GOZDUR AND S. WIŚNIEWSKI: Influence of working fluid evaporation temperature in the near-critical point region on the effectiveness of ORC power plant operation	77
R. WYCZÓŁKOWSKI AND D. MUSIAŁ: Experimental tests for the occurrence of convective heat transfer within the bed of rectangular steel profiles	89
W. ELSNER, Ł. KOWALCZYK AND M. MAREK: Numerical thermodynamic optimization of supercritical coal fired power plant with support of IPSEpro software	101
P. DZIERWA AND J. TALER: Optimum heating of cylindrical pressure components weakened by holes	111
E. PELIŃSKA-OLKO: Heat transfer through the regular polyhedrons with asymmetric boundary conditions	123
D. RZAŚA AND P. DUDA: A new method for optimum heating of pressure components in supercritical steam power blocks	133
