

Contents

J. KUPECKI AND K. BADYDA: Mathematical model of a plate fin heat exchanger operating under solid oxide fuel cell working conditions	3
P. KRAWCZYK: Cumulative ventilation air drying potential as an indication of dry mass content in wastewater sludge in a thin-layer solar drying facility	23
A. GRZEBIELEC AND A. RUSOWICZ: Analysis of the use of adsorption processes in trigeneration systems	35
P. ZIÓŁKOWSKI, D. MIKIELEWICZ AND J. MIKIELEWICZ: Increase of power and efficiency of the 900 MW supercritical power plant through incorporation of the ORC	51
M. TROJAN AND J. TALER: Effect of scale deposits on the internal surfaces of the tubes on the superheater operation	73
T. CHMIELNIAK, D. CZAJA AND S. LEPSZY: Selection of the air heat exchanger operating in a gas turbine air bottoming cycle	93
A. DUDAR, D. BUTRYMOWICZ, K. ŚMIERCIEW AND J. KARWACKI: Exergy analysis of operation of two-phase ejector in compression refrigeration systems	107
P. NIEGODAJEW, D. ASENDRYCH AND S. DROBNIAK: Numerical analysis of CO ₂ capture efficiency in post combustion CCS technology in terms of varying flow conditions	123
Ł. BARTELA AND J. KOTOWICZ: Analysis of operation of the gas turbine in a poligeneration combined cycle	137
D. TALER AND P. CISEK: Modeling of cooling of ceramic heat accumulator	161

Ł. KOWALCZYK AND W. ELSNER: Comparative analysis of optimisation methods applied to thermal cycle of a coal fired power plant	175
A. KACPRZAK, R. KOBYLECKI, AND Z. BIS: The effects of operating conditions on the performance of a direct carbon fuel cell	187
M. BRZĘCZEK AND Ł. BARTELA: Optimizing management of the condensing heat and cooling of gases compression in oxy block using of a genetic algorithm	199
J. KOTOWICZ AND M. JOB: Thermodynamic and economic analysis of a gas turbine combined cycle plant with oxy-combustion	215
M. SZEGA AND G.T. NOWAK: Identification of unmeasured variables in the set of model constraints of the data reconciliation in a power unit	235
A. KĘPA: Experimental investigations of additional gas extraction inside a cyclone	247
M. ORSZULIK, A. FIC, T. BURY AND J. SKŁADZIEŃ: A model of hydrogen passive autocatalytic recombiner and its validation via CFD simulations	257
