

Contents

A.K. AGGARWAL AND A. VERMA: Effect of hall currents on thermal instability of dusty couple stress fluid	3
J.T. CIEŚLIŃSKI, A. FIUK, K. TYPIŃSKI AND B. SIEMIĘNCZUK: Heat transfer in plate heat exchanger channels: Experimental validation of selected correlation equations	19
G.M. GRIGORIAN AND A. CENIAN: Influence of nitrogen on thermodynamic properties and plasma composition in discharge tube of CO-laser	31
T. MUSZYŃSKI AND S.M. KOZIEL: Parametric study of fluid flow and heat transfer over louvered fins of air heat pump evaporator	45
W. RYBIŃSKI AND J. MIKIELEWICZ: Analytical 1D models of the wall thermal resistance of rectangular minichannels applied in heat exchangers	63
J. WAJS, D. MIKIELEWICZ, M. BAJOR AND Z. KNEBA: Experimental investigation of domestic micro-CHP based on the gas boiler fitted with ORC module	79
D. JOACHIMIAK AND P. KRZYŚLAK: A model of gas flow with friction in a slotted seal	95
H. BIELIŃSKI: Validation of the generalized model of two-phase thermosyphon loop based on experimental measurements of volumetric flow rate	109
