

Contents

J. BADUR, M. STAJNKE, P. ZIÓLKOWSKI, P. JÓŻWIK, Z. BOJAR AND P.J. ZIÓLKOWSKI: Mathematical modeling of hydrogen production performance in thermocatalytic reactor based on the intermetallic phase of Ni_3Al	3
CAIO H. RUFINO, ALESSANDRO J.T.B. DE LIMA, ANA P. MATTOS, FAZAL U.M. ALLAH, JANITO V. FERREIRA, AND WALDYR L.R. GALLO: Effects of combustion products composition models on the exergetic analysis of spark-ignition engine fuelled with ethanol	27
K. WACŁAWIAK AND J. OKRAJNI: Transient heat transfer as a leading factor in fatigue of thick-walled elements at power plants	43
P. PLUSZKA, A.P. BRENNK AND Z.M. MALECHA: Numerical study of flow maldis- tribution in plate heat exchangers used for evaporation process	57
T.Z. KACZMARCZYK, E. IHNATOWICZ, G. ŻYWICA AND M. KANIECKI: Experimental study of the prototype of a Roto-Jet pump for the domestic ORC power plant	83
Z. KNEBA: Modeling of the internal combustion engine cooling system	109
M. FURMANEK AND J. KROPIWNICKI: Hydraulic resistance analyses of selected elements of the prototype Stirling engine	123
D. ZANIEWSKI, P. KLIMASZEWSKI, Ł. WITANOWSKI, Ł. JĘDRZEJEWSKI, P. KLONOWICZ, P. LAMPART: Comparison of an impulse and a reac- tion turbine stage for an ORC power plant	137
P. KLIMASZEWSKI, D. ZANIEWSKI, Ł. WITANOWSKI, T. SUCHOCKI, P. KLONOWICZ, P. LAMPART: A case study of working fluid selection for a small-scale waste heat recovery ORC system	159
Z. ZAPALOWICZ AND A. WALTEROWICZ: Experimental estimation of thermal emissivity for the roofing paper in blue colour	181

A. ADAMKIEWICZ AND S. GRZESIAK: Identification of waste heat energy sources of a conventional steam propulsion plant of an LNG carrier	195
W. ZEŃCZAK: Simplified exergy analysis of ship heating systems with different heat carriers and with the recovery of waste heat	211
A. ADAMKIEWICZ AND P. NIKOŃCZUK: Waste heat recovery from the air prepa- ration room in a paint shop	229
J. KROPIWNICKI: Analysis of start energy of Stirling engine type alpha	243
