

Contents

T. STAŠKO, M. MAJKUT, S. DYKAS, AND K. SMOLKA: Selection of a numerical model to predict the flow in a fan with a cycloidal rotor.....	3
P. TRAWIŃSKI: Development of flow and efficiency characteristics of an axial compressor with an analytical method including cooling air extraction and variable inlet guide vane angle.....	17
I. SZCZYGIEL AND B.P. RUTCZYK: Theoretical analysis of LNG regasifier supplementing gas turbine cycle.....	47
M.K. BEZRODNY AND T.O. MISIURA: Research to estimate energy efficiency of a ventilation and air conditioning heat pump system inside a production premise with ventilation air recovery.....	69
M.M. SULTANOV, S.A. GRIGA, M.S. IVANITCKII, AND A.A. KONSTANTINOV: Monte-Carlo method for assessing and predicting the reliability of thermal power plant equipment	87
V.O. KINDRA, I.A. MILUKOV, I.V. SHEVCHENKO, S.I. SHABALOVA, AND D.S. KOVALEV: Thermodynamic analysis of cycle arrangements of the coal-fired thermal power plants with carbon capture	103
V. KINDRA, S. OSIPOV, O. ZLYVKO, I. SHCHERBATOV, AND V. SOKOLOV: Thermodynamic analysis of an innovative steam turbine power plant with oxy-methane combustors.....	123
P. GAJ, K. SOBCZAK, J. KOPANIA, AND K. WÓJCIAK: Influence of shell shape on flow and acoustic parameters of a steam silencer.....	141
V. KINDRA, A. ROGALEV, O. ZLYVKO, V. SOKOLOV, AND I. MILUKOV: Research and development of a high-performance oxy-fuel combustion power cycle with coal gasification.....	155
B. PRITZ, M. PROBST, P. WIŚNIEWSKI, S. DYKAS, M. MAJKUT, AND K. SMOLKA: Identification of unsteady effects in the flow through a centrifugal fan using CFD/CAA methods.....	169
D.H. HÜBNER, S. GRÜN, AND J. MOLTER: Investigation and simulation based optimization of an energy storage system with pressurized air.....	183
E. MARCHEWKA, K. SOBCZAK, P. REOROWICZ, D.S. OBIDOWSKI, AND K. JÓZWIK: Application of overset mesh approach in the investigation of the Savonius wind turbines with rigid and deformable blades.....	201
P. HABERSCHILL, E. NEHDI, L. KAIROUANI, AND M.A. ELAKHDAR: Experimental study of a two-phase ejector for CO ₂ transcritical refrigeration system	217
J. BOBROWSKI AND K. SOBCZAK: Numerical investigations on the effect of an underbody battery on solar vehicle aerodynamics.....	247
M.J. KOWALCZYK, M. ŁĘCKI, A. ROMANIAK, B. WARWAS, AND A. GUTKOWSKI: Investigations of thermal-flow characteristics of minichannel evaporator of air heat pump.....	261
