

TRANSACTIONS OF THE INSTITUTE OF FLUID-FLOW MACHINERY
No. 127, 2015

C O N T E N T S

J. Kiciński:	Letter from the Editor-in-Chief	3
J. Kiciński:	New ideas in distributed cogeneration and power engineering	7
J. Badur:	Energy conversion, conservation and management ...	27
J. Pozorski:	On general-purpose turbulence models in CFD	45
D. Kardaś:	From biomass towards syngas	63
M. Dors:	Towards clean energy production	91
W. Ostachowicz, T. Wandowski and P. Malinowski:	Prin- ciples of piezo-based machinery health monitoring	117
P. Lampart:	Selected technical problems of cogeneration of elec- tric energy and heat	137
