

TRANSACTIONS OF THE INSTITUTE OF FLUID-FLOW MACHINERY
No. 136, 2017

C O N T E N T S

W. Wróblewski, K. Bochon and T. Borzęcki: What-if analysis of the labyrinth seal of the gas turbine rotor tips	3
J. Porzuczek: Numerical analysis and experimental verification of the electrical impedance tomography method for monitoring of the packed-bed drying process	23
Ł. Złoty and D. Pasikowski: Study of characteristic curves of rotodynamic pumps working as turbines	35
K. Karaśkiewicz and Ł. Złoty: Influence of radial flow impeller balance holes on the net positive suction head for rotodynamic pumps	47
M. Stajnke and W. Włodarski: How much a geometrical model of a honeycomb seal can be simplified in the CFD calculation	55
K. Banaś and J. Badur: On an approach to the thermo-elasto-plastic failure based on the Burzynski criterion	65
