

Nr 101(1996)

- Banaszkiewicz M., Badur J.:** Modelowanie przepływów ekspandującej wody
Krenski M.: Analiza numeryczna wpływu różnych stopni uproszczenia modeli węzłów łożyskowych na pracę dużej maszyny wirnikowej (turbozespół o mocy 200 MW)
Kiciński J.: Nonlinear model of vibration in rotor-bearings system. Part II. Calculation results
Mikielewicz D. P.: Modelling of an ascending flow of air in a heated vertical pipe
Butrymowicz D., Ihnatowicz E., Trela M.: Badania eksperymentalne drenażu cieczy z poziomych rur ożebrowanych
Mikielewicz J.: Kształt strugi cieczy rozpryskującej się po powierzchni dowolnie zorientowanej w przestrzeni
Klein M., Łojek A.: Maszyna rekuperacyjna jako reduktor ciśnienia w instalacjach przemysłowych

Nr 102(1997)

- Mikielewicz D. P.:** Modelling of a buoyancy-influenced flow of supercritical pressure helium in a heated vertical pipe
Świryczuk J.: The destabilisation of vortices interacting with small flat plates in the air stream
Mikielewicz D. P.: An improved low-Reynolds-number $k\sim\epsilon$ model for flows in pipes
Wróblewski J.: Techno-economic advantages of operation of pumped-storage plants within the power station
Mikielewicz J.: Impingement of two-phase gas-liquid jet on a flat plate
Wierciński Z.: The stochastic theory of the natural laminar-turbulent transition in the boundary layer
Mosdorf R.: Review of recent investigations of deterministic chaos in boiling

Nr 103(1997)

- Kaczmarek J.:** Remark on the need of formulation of molecular catalysts mechanics
Mikielewicz J., Mikielewicz D.: Semi-analytical model of spray impingement on a flat surface
Trela M. Kornecki I.: Heat transfer and minimum wetting rate for a falling laminar liquid film
Mikielewicz J., Mikielewicz D.: Influence of plate thermal parameters on a non-stationary temperature measurements
Mikielewicz J.: Conference on *Modelling and Design in Fluid-Flow Machinery*
Bilicki Z.: Professor Jerzy Krzyżanowski on his seventieth birthday and forty years at the Institute of Fluid-Flow Machinery of the Polish Academy of Sciences
Krzyżanowski J.: Institute of Fluid-Flow Machinery in its forties
Badur J.: O mechanicznych korzeniach cechowanej teorii pola

Nr 104(1998)

- Tiedemann M.:** Stator wake effects on the total pressure distribution downstream of a transonic turbine rotor
Chmielniak T.J., Łukowicz H., Wróblewski W.: Modular algorithm for the flow analysis in heat turbines

Donevski B., Nedelkovski I., Stefanovska C., Brodowicz K., Ostrowski K.: Numerical computation of steam flow in power plant condensers utilizing the three-dimensional procedure

Jung A.R., Mayer J.F., Stetter H.: Unsteady blade loads caused by stator/rotor interaction in an axial turbine stage

Puzyrewski R., Flaszynski P.: Conical and cylindrical axisymmetrical flow under influence of non-potential body forces and dissipation effects

Willinger R., Haselbacher H.: Experimental and numerical investigation of the flow field in a linear turbine cascade including tip clearance effects

Hanausek P., Gundlach W.: Identification of the effects of the flow through the holes in the rotating wheel of an impulse turbine

Jesionek K.J.: Prediction of turbulent flow separation in conical diffusers

Št'astny M. Brich J., Polansky J.: Numerical simulation of a steam flow through a balanced control valve

Mikielewicz J., Mikielewicz D.: Analysis of the influence of the design parameters of the probe for dew-point temperature measurements on its static and dynamic characteristics

Mosakowski R.: Mathematical analysis of compressor unit operation with stepwise capacity control

Nr 105(1999)

Jarża A., Tarnowski T.: Turbulent flow around circular cylinder in oscillatory inlet conditions

Elsner W., Drobnik S.: Phase-reconstruction of a moving cylinder wake

Solodov V. G.: Numerical approach to study the non-stationary flow phenomena in exhaust hood compartment - last stage of steam turbine

Adamkowski A.: Performance and diagnostic tests on hydraulic gensets in Polish Hydro Power Plants

Bohdal T.: Heat transfer during boiling of environmentally-friendly refrigerant R134a in tube coils

Gireń B. G., Steller J.: On the effectiveness of fixing cavitation damages with new electrodes featured by a metastable structure of the padding weld

Jaworek A., Krupa A.: Spherical probe for liquid flow rate measurement in two phase flows
